222 words

It's a Bird! It's a Plane! It's a Flying Car!

Think Ahead

Let's Talk

1. Look at the picture.
What does the car have in the picture?
2. Do you think cars will fly in the future?

Let's Check

Which words come to your mind when you think of a flying car?

airplane

wings

clouds

bird

sky

Flying High!

Did you know that cars can fly? It's true! In March 2009, a company showed people the first flying car. They gave the **vehicle** the name "Transition."

Moving Parts

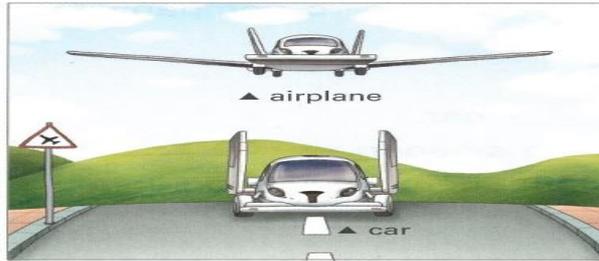

It has two special **wings** on the sides. They are special because they can move! The wings **fold up** when you don't need them. In addition, they open when you want to use them. It takes less than 30 seconds to move both of the wings. That's pretty fast!

Two for One Deal

With the Transition, people can travel in two different ways because of its two wings. For one, the vehicle can be a car. It can go as fast as 65 miles per

hour on the road. And for every gallon of gas, it can travel 30 miles. Next, it can also be an airplane when you want to **take off**. It can fly up to 115 miles per hour. But you need to get a **pilot's license** first!

Just the Plane Facts!

The Transition is the smallest airplane. It is called a light-sport **craft** because it is not that heavy. Each plane weighs 1,430 pounds. That's about half the weight of a normal car! In 2011, these flying cars will be ready for people to buy. It will cost 194,000 dollars to buy one! They are very **expensive**!

← A license is a card. When you drive a vehicle, you will need it.

vehicle *n.*
something used for travel

wing *n.*
the part on each side of an airplane

fold up *phrasal v.*
to bend in order to close

take off *phrasal v.*
to leave the ground

pilot *n.*
a person who can fly an airplane

license *n.*
papers or a card that says it's okay to do something

craft *n.*
a ship, boat, or an airplane

expensive *adj.*
costing a lot of money

Which name did people give the first flying car? Find the answer in the first paragraph and write.

.....

.....

.....

- 3 How is the Transition different from other cars?**
- People don't need a license to drive it.
 - People don't need gas to move it.
 - People can drive it on the road and fly it in the sky.
- 4 How long does it take to move both of the wings?**
- It takes 30 minutes.
 - It takes less than 30 seconds.
 - It takes more than 30 seconds.
- 5 The Transition is called a light-sport craft because it is not _____.**
- heavy
 - fast
 - expensive
- 6 Inference** What can be inferred from the story?
- People will only use planes to fly in the future.
 - People will fly their flying cars in the future.

Skill Build Up
Categorizing

What are the differences between the two cars? Complete the chart with the correct answers below.

Cars	
A normal car	A flying car
•	•
•	•
•	•
